TABLE COVERS

- Quilted, quick absorbing table covers safeguard patients and equipment from fluids.
- The breathable, top layer of material provides a comfortable surface for direct patient contact.
- Available in two different finishes, covers trap fluids in the inner core for ease of clean up following procedures.
- The low linting design minimizes wrinkling to ensure a dry outer layer for protecting both patient skin and surrounding equipment.
- The impervious bottom layer helps prevent strikethrough and cross-contamination.
- Single use linens reduce the potential for biological and environmental contaminants being introduced in the OR.

LIFT SHEET

Built for strength, the lift sheet supports up to 270 kg of weight.

ARMBOARD COVERS

The fabric armboard covers with straps stay in place for added patient safety.

HEADREST COVERS

With an impervious backing, headrest covers help prevent bacteria from colonizing.
