HALYARD* STERILISATION WRAP FOR EVERY NEED

With HALYARD* Sequential, HALYARD* QUICK CHECK INTERLEAVED*, HALYARD QUICK CHECK* and HALYARD SMART-FOLD* Sterilisation Wrap, your CSSD team can depend on consistent sterility maintenance and aseptic presentation for all your surgical instruments.

HALYARD* Sterilisation Wrap is a three-layer packaging material consisting of the unique SMS fabric and treated with the unique POWERGUARD* Technology for the highest level of Bacterial Filtration Efficiency: 99.9%.

Every grade of HALYARD* Sterilisation Wrap features the patented "Daisy" bond pattern, making it obvious at a glance that you have selected HALYARD* Sterilisation Wrap, the brand that delivers quality and protection, time after time.

The benefits of HALYARD* Sterilisation Wrap:

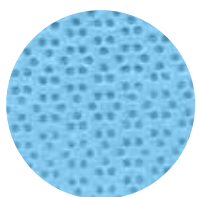

- High strength
- Low-lint
- EN ISO 11607 compliant
- Effective barrier
- Easy aseptic presentation
- Available in multiple strengths from H100 to H500

HALYARD* Sequential Sterilisation Wrap provides an excellent bacterial barrier adapted to the sequential wrapping techniques and assures an aseptic presentation.

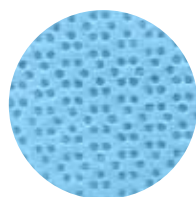

HALYARD* QUICK CHECK INTERLEAVED* Sterilisation Wrap represents single sheets of two colours, blue and white, for sequential wrapping allowing a faster breach detection and colour coding of your packages.

HALYARD* QUICK CHECK* Sterilisation Wrap features two layers of wrap, in two colours: blue and white, thermally bonded along the edges for a single-step wrapping resulting in 49% time saving and faster breach detection.

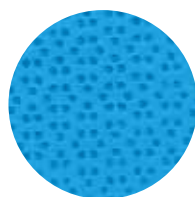

HALYARD* SMART-FOLD* Sterilisation Wrap with its unique shape reducing excess material and with triple-layer reinforcement zones to even protect your heaviest trays from tears, cuts in handling.
